St. Petersburg, April 8.—While the first line of defense against the Japanese advance from Korea is a strong position near Feng Huang Cheng, selected by General Kuropatkin, it is believed the Russians intend to hold as long as possible at An Tung, which command the old Peking road. The place has many natural advantages for defense.

General Kuropatkin's army, according to Russian advices, is strung out along the road between Anju and Wiju. Its advance being severely impeded by bad roads, which make it difficult to push forward the supplies, which are dragged by coolies, requiring eight days' march from Chyon Ju to the Yalu. For seventy miles the river is 3,000 feet wide, and at Yonnampho it is ice laden and barreled by islands, whence the Russian sharpshooters can harass the Japanese advance.

The Russians have entrenched themselves heavily near Hui Cheng to block the progress of the Japanese in case they succeed in landing at the head of the Liao Tung gulf.

## LIFE TERM IN PRISON IS GIVEN MRS. BOTKIN

Woman Accused of Slaying Two Sisters With Poisoned Candy Is Again Convicted.

San Francisco, April 8.—The jury in the case of Mrs. Cordella Botkin, accused of the murder of two women by poison, brought in a verdict of guilty in the first degree, fixing the punishment at imprisonment for life. Mrs. Botkin was charged with having poisoned Mrs. John P. Dunning, Mrs. Deane, both of Dover, Del., daughters of ex-representative Pennington, five years ago, sending them a box of poisoned candy. The cause alleged was her love for Mr. Dunning. Mrs. Botkin was arrested at San Francisco, where she has been kept in custody, notwithstanding attempts of the Delaware authorities to have her taken to that state for trial. In 1898 Mrs. Botkin was found guilty and sentenced to life imprisonment. She secured a new trial, which was begun March 10.

Mrs. Botkin is the youngest of three daughters. Brownville, Neb., was named after her father, and the family lived there until 1896, when the Browns moved to Kansas City. Cordella Brown married Welcome A. Botkin, cashier of a Joplin, Mo., bank. He later was associated with a Kansas City bank and they lived in that city up to 1895, when Mrs. Botkin went west. Since the first trial Mr. Pennington, whose testimony largely convicted Mrs. Botkin, has died. Many witnesses, including Mr. Dunning, were brought here from the east to testify.

Mrs. John Bowman, aged 26, residing near Red Bridge, Ind., swallowed rat poison through mistake and died in great agony.

William A. Morgan of 407 Salem street, Rockford, proved to be the fifth victim of the Rockford, Beloit & Janesville interurban road. He met death on the tracks near the Harlem road crossing about three o'clock yesterday afternoon. No blame is attached to the company for the accident and the fact that the man was almost totally deaf is held responsible. The unfortunate man rode from Rosemead to Harlem Crossing and alighting at the latter place stepped to one side of the track and sat down upon the stile leading to the schoolhouse. A moment later he got up, walked to the track, and stepped in front of the express car which was following the passenger and going at full speed. Though the whistle was blown by Motorman Byron W. Phelps the man did not look back and all efforts to stop the car failing, he was ground under the wheels. Deceased was a nephew of former Gov. # RESTRAINT IS MUCH NEEDED

President Roosevelt Holds That Personal Liberty Depends Upon Its Exercise.

## OBSERVANCE OF LAW IS NOT ALL

Poor Citizenship Is That Which Can Only Claim Failure—To Violate the Statutes Is Not Easy.

(Special by Scripps-Mellae.)

Washington, April 8.—"There must be more than good laws to make a good people. A man whose morality is expressed merely in the nonfrustration of the law is a pretty poor creature," declared President Roosevelt in an address at the dinner of the Periodical Publishers' Association of America, given at the New Willard Hotel. The president was heard by a distinguished company of government officials, representatives of foreign lands and civilians, many of the latter from the literary world.

"It is always a pleasure to a man in public life to meet the real governing classes," said President Roosevelt. "I wish to bid you welcome to Washington and to say but a word of greeting, and that word shall take the form of a warning and a hope. I did not speak in jest when I alluded to you as representatives of the governing classes. I think that we of the United States cannot keep too fresh in our minds the fact that the men responsible for the government are not the representatives of the people, but the people themselves, and that therefore and that the performance of our people and of our liberty depends upon the way in which we shall exercise that self-restraint."

**Restraint Is Necessary.**  
"Now in the days of my youth I was a literary man. I have recently, in reading a book, been immensely

struck by the thought developed in it by one of our greatest scholars, who was speaking of freedom and of the fact that freedom could not exist unless there went with it a sense of responsibility, and he used a phrase somewhat like this: 'That among all people there must be a restraint; if there is no restraint there is for an inevitable result anarchy, which is the negation of all government.'"

"Therefore, there must be restraint. A free people has merely substituted self-restraint for external restraint, and the permanence of our people and of our liberty depends upon the way in which we shall exercise that self-restraint."

"There must be more than good laws to make a good people. A man whose morality is expressed merely in the nonfrustration of the law is a pretty poor creature. Unless our average citizenship is based upon a good deal more than mere observance of the laws on the statute books, then our average citizenship can never produce the kind of government which it must and will produce. So far from liberty and the responsibilities of self-government being things which come easily, and to any people, they are peculiarly things that can come only to the most highly developed people capable not only of mastering others but of mastering themselves, and who can achieve real self-government, real liberty."

## COLOR PHOTOGRAPHY PATENT IS GRANTED

After Five Years' Investigation Exclusive Rights Are Given to Johns Hopkins Professor.

Baltimore, April 8.—Dr. Robert W. Wood, professor of experimental physics at Johns Hopkins University, has announced that he has been granted a patent covering all rights to the fundamental invention of the process of color photography by means of Rowland's spectroscopic diffraction grating. The patent office has been five years investigating his claims to ascertain the rights of the process to an exclusive patent and protection which this affords all processes based upon it. The patent will protect his rights upon the derivative inventions.

The process at present is valuable from an academic standpoint. The photographs cannot be made on paper, but only upon glass slides, and a special viewing apparatus or electric lantern upon a screen must be used to get the optical results. By employing the diffraction grating the colored screens and pigments necessary in all other processes can be eliminated from the finished picture and duplicates can be made as easily as blue prints are struck off from an ordinary negative.

## TO BUILD MANY ENGINES SHORTLY

WILL CONSTRUCT FORTY LOCOMOTIVES IN MILWAUKEE.

## ST. PAUL ROAD NEEDS THEM

Ten Will Be Finished by May 1—Have Improved the Shops in That City To Meet Emergencies.

Orders have been received for the building of forty engines at the West Milwaukee shops of the Chicago, Milwaukee & St. Paul road. They will be freight and passenger engines for that road. Last year a number of switch engines were built at West Milwaukee, but nothing of higher grade has ever been built there. The forty engines will cost about \$600,000.

A number of weeks ago it was announced that the Chicago, Milwaukee & St. Paul road was to have a number of new engines, but nothing further could then be learned. A. E. Manchester, superintendent of motive power at the shops, is authority for the facts given out.

Recent Orders Include Thirty. The order for ten freight engines came some time ago, and they are already under way. The first one will be finished about May 1. These are known as consolidation engines, having four drive wheels coupled together. They will weigh about 300,000 pounds each, and their value will be about \$16,000 each.

Fifteen other freight engines have been ordered. These are to be ten drive wheel engines. Their cost and size will equal the others.

Fifteen passenger engines are also ordered. These will weigh about as much as the freight engines, but they will be of the Pacific type, and the others of the Atlantic and Kansas City types. The building of these will be reached in the fall.

Road Short of Motive Power. Reasons given for the building of so many engines for the St. Paul road are numerous. Traffic on all roads has increased greatly. Especially during the past winter has the need of motive power been felt on all roads. The cold weather rendered some engines useless, and decreased the hauling capacity of all during zero weather 25 to 50 per cent.

Improvements were made at the West Milwaukee shops more than a year ago with the idea of preparing to build all the engines of the road. But up to the present time nearly all efforts have been directed toward repairing old engines. Last year a number of switch engines, which are the cheapest grade of engines, were built. The road continued to buy passenger engines from eastern companies. Some of these have arrived during this winter. The policy of the road will be to quit buying from eastern companies and increase the amount of building done at the West Milwaukee shops.

## BASE BALL THE PRESENT TOPIC

Coach Pierce Takes His Colts for an Airing—Cornell Will Not Come West.

Madison, Wis.—The University of Wisconsin baseball team has commenced to train in the open air, having deserted the gymnasium for the campus. The regular nine is being lined up against the scrubs and the practice is strenuous. Coach Pierce says that none of the regulars has a "chance" on his place and frequent changes in the team will be made to get the best possible combination for team work. Captain Gordon Lewis and Howard Savage, against whom informal charges of summer vacation professionalism have been made, are still training with the team and there will be no formal charges until their cases are investigated into their cases unless formal charges are preferred by some other institution. It is tacitly admitted, however, that both Lewis and Savage are clearly ineligible to play in conference college games if the amateur rules be invoked against them.

Race is Off. After weeks of negotiations and lengthy correspondence, and after every one thought that the Cornell race was a surety, the athletic board last evening rescinded its action of a week ago, and decided that it would not assume the responsibility and bear the expense of bringing a Cornell crew west for a race at Madison jubilee week, mainly because Coach Courtney would not send his varsity crew here, but intended to send last year's freshmen eight, and also because of the refusal of the jubilee finance committee to guarantee the necessary financial aid. It was that as the athletic association is already \$6,000 in debt, it would not be advisable to add \$1,200 to that debt, and at the same time jeopardize the chances of sending a crew east. The loss of the race means that the jubilee celebration will be denied one of its chief attractions. This puts away all hope of there being an intercollegiate boat race at Madison this year, and means that the race with the Duluth Boat club will be the only aquatic event in jubilee week. It was decided at the meeting that this year and every year hereafter the members of the varsity four who compete in an intercollegiate race be granted the official "X's."

Manager Kilpatrick was instructed to go to Milwaukee to make arrangements for grounds for the Haskell Indian game to be held there next fall.

## STRANGE EXHIBIT OF FUNNY PLANTS

Government Plans for Novel Exhibition at the St. Louis Exposition.

One of the features at the Louisiana Purchase Exposition of interest to the student of medicine and pharmacy is the outdoor exhibit of the office of Drug and Medicinal Plant Investigations of the U. S. Department of Agriculture, made under the direction of Rodney H. True, Physiologist in charge.

This exhibit comprises growing specimens of various medicinal plants, some of them native species which are gradually becoming scarcer and therefore more valuable, some simply ordinary weeds that can be picked up almost any farm for which, however, there is considerable demand. A few foreign drug plants, of which we are now importing large quantities and which could be cultivated in this country as well as abroad, are also introduced.

The area devoted to medicinal plants consists of a strip of land 180 feet long by 40 feet wide. This is laid off in 47 plots, each measuring about 13 feet in length by 7 feet in width, with walks between the beds affording easy access to the plots for purposes of closer scrutiny and examination. The labels give the common and scientific names of the plants, the parts employed in medicine, and their properties.

The plants are arranged in their natural sequence according to the now generally accepted Engle and Prantl system. Thus, the grass family occupies the first position in the field and includes in this exhibit the most valuable member and one of the most worthless, from the farmer's standpoint; namely, corn and couch grass, the corn stalk and silk furnished by the former being used in medicine, and the source of much trouble to the farmer, also possessing medicinal properties.

Golden seal, a native plant for the root of which a great demand exists and which brings a good price, will also be found here, as well as another plant which caused a flurry in the market on account of short supply, namely, the Carcra sagrada tree, the bark of which is employed medicinally.

Yellow dock, pokeweed, Jimson weed, and dandelion, well known as weeds in one part of the country or another, are here growing in a state of cultivation. Aconite, belladonna, henbane, and digitalis, all poisonous narcotic herbs, now occurring principally in Europe and imported into this country in large quantities, are also shown.

The mint family, the members of which furnish volatile oils is well represented by such fragrant herbs as lavender, pennyroyal, sage, summer savory, thyme, peppermint, and spearmint.

The opium poppy, licorice, castor oil plant, hops, valerian, tansy, wormseed, wormwood, and many other plants more or less important as drugs, are grown in this garden.

The different parts of these plants, prepared as they are found in the drug trade, are shown in the indoor exhibit of the Bureau of Plant Industry, as are also some of the active principles obtained from them.

## YEAR'S WORK OF THE W. C. T. U.

During the Past Twelve Months, Much Good Has Been Accomplished.

What the W. C. T. U. has done since March 1903: Held their regular meeting on the third Thursday of each month, besides 2 parents' and 10 mothers' meetings; has secured lectures for the public, also rendered a pleasing flower mission program. 6544 pages of literature have been distributed; 7472 pages sent to the county poor farm; 500 pages and a large box of flowers sent to county jail. This has been first-class reading matter. The "American Mother" has been subscribed for the city library. Woman's reformatory at Waupun, the W. C. T. U. home for girls in Eau Claire, and have been sent into 36 homes. A lumber camp at Rib Lake was supplied with reading material. The flower mission has distributed 71 bouquets, 4 blossoming plants, canned fruit, jelly, delicacies for the sick, clothing, 28 baskets of provisions, and 6 bushels of potatoes.

This is only a part of the work done by the local union of women, who are not franchise seekers, but who realize the relations of the home to the welfare of the nation, and who encourage the good and discourage the bad. They believe in the education of principle in the child as the "Thou shalt not" of law for the adult. A hearty "thank you" is extended to the editors who have so kindly published all notices and have so faithfully and generously reported the public meetings of the Woman's Christian Temperance union.

A reduction in wages varying from 5 to 10 per cent went into effect at the Arlington Cotton mills, Lawrence, Mass., recently. The change applies to 2,000 of the 4,000 operatives, and was made in the worst spinning department and in one factory. Upward of 500 hands have been idle since March 22, on account of a strike which followed the posting of the notices. About 100 spinners left one of the Arlington mills and joined the strikers. At a mass meeting of the idle hands it was voted unanimously to continue the strike.

Molders and their employers representing all of Eastern Pennsylvania, reached an agreement March 29 after an all-day session. It was decided to renew the scale effective during the last two years in which the minimum is \$2.75 a day of ten hours.

There is trouble brewing among the telegraph operators at Toronto, and possibly the men from all over Canada will be drawn into the affair, unless the Great Northwestern Telegraph company, operating in connection with the Western Union, accedes to the demands of the men. The trouble originated over the formation of a union of telegraphers, under the protection of the Commercial Telegraphers' Union of America.

Efforts are being made by the executive committee of the striking bricklayers to arrive at agreements with individual employers as to the wages of the laborers and their hours of work.

The French government employs 1,550 workmen and 15,000 women in the State tobacco manufactory.

In England there are five labor representatives in the House of Commons, and at the next election it is believed that thirty more will be elected.

The discontent induced by famine and lack of employment has reached the point in Russia where a revolutionary outbreak is imminent.

Iowa is confronted with a coal famine as the result of a lockout which has closed every mine in the state and a section of Missouri. Not a pound of coal is to be had for sale in Des Moines, and other cities of the state are similarly affected.

## OBITUARY

Pearl Daniels Morrow

The many friends of Mrs. Pearl Daniels Morrow will be shocked and grieved to learn of her sudden death at her home in Larrabee, Iowa. She was a teacher in the Adams school in this city for several years, and only a few months ago left here a happy bride for her new home. She has been a patient sufferer the past winter with ulceration of the stomach, and the constant hemorrhage weakened the system, till the frailty could no longer hold the beautiful spirit to earth, and Monday, April 4th, she passed to the great beyond. Her sister, Mrs. Eva Dutchen, of Peabody, Kansas, and an aunt, Mrs. Thompson of Delavan, Wis., were telegraphed for and were with her till the end. Skillful physicians and a trained nurse were in attendance and loving hands did all that could be done, but death has conquered all. She was a member of the Great Street Methodist church of this city and by her pleasant ways and charming manner endeared herself to all with whom she came in contact. To know her was to love her. The strength of her character shone with glowing light beautifying and ennobling all her works, as the sun in its declining rays sends across the western sky the brilliant threads of gold. The book of life is closed. The sun has just gone down.

## DUCK SEASON IS NEAR AT HAND

THE DEPUTY GAME WARDEN EXPLAINS DIFFERENT CLAUSES.

## WILL OPEN ON SUNDAY NEXT

Unlawful to Kill Teal, Mallard or Wood Duck During Open Season—Heavy Penalty.

Janesville hunters were much in doubt the past few days as to whether the opening of the duck season began the Sunday or Monday. This uncertainty has been made clear by the following statement by Deputy Game Warden Charles H. Nelson:

The law is not quite clear in regard to the duck hunting season but we will give the hunters the benefit of the doubt so they can go hunting Sunday without fear of being interrupted by the game wardens.

According to the law the season opens April 10 and lasts 15 days, including April 25. This would give the open season 16 days and it is this point that puzzled the minds of the hunters. Every hunter is privileged to kill 15 ducks a day. Open water shooting is prohibited. The use of 25 decoys is allowed. They can be floated within a radius of 200 feet at gunshot distance from the shore.

It is unlawful to take, catch, kill, hunt or pursue any teal, mallard or wood duck during the open season. Any person who violates the provisions of the law will be deemed guilty of a misdemeanor and will be punished by a fine of not less than \$10 nor more than \$50, or by imprisonment in the county jail not less than 30 days nor more than 60 days, or both such fine and imprisonment. Already several parties of Janesville sportsmen have gone to Lake Koshkonong for the fifteen days of spring hunting. The lake is still full of ice but reports from that state that there are any number of ducks and that they are fat and "sassy." A few flocks of geese have been seen but owing to the poor condition of the ice but few have been shot this spring. Owing to the cold weather the ice is still thick and it will be some days before warm rains can dislodge it.

## MADISON MAN IS NOW A CAPTAIN

Son of Captain Charles Curtis Receives Promotion in the Regular Army.

The following dispatch from Madison announces the promotion of Lieutenant Lawrence Curtis to the rank of captain in the regular army: Madison, Wis., April 7.—Col. Chas. A. Curtis, professor of military science and tactics at the university, has received information from St. Marshall, Minnesota, P. I., that his son, Lieut. Lawrence A. Curtis, had passed an examination for promotion to the rank of captain.

By the former members of the First Wisconsin volunteers Captain Curtis will be remembered as having been a member of the Madison company. He was ordered up for his examinations while the regiment was at Jacksonville and after sometime spent at Fort Leavenworth, was commissioned second lieutenant in the twelfth infantry of the regular army. He was sent with his regiment to the Philippines and was stationed near the seat of all the hellish troubles, having command of a small post with his company as garrison. Mr. Curtis captured one of the spies of Aguinaldo and it was through information gained by this means that the famous rebel chieftain was captured. Later he was transferred to the same regiment that Captain Richardson belongs to and returned to this country. Last September he returned for further Philippine service with his regiment and is now stationed near Manila.

Captain Curtis is the son of Captain Charles Curtis, commandant of the university regiment. His brother, Warden Curtis, is an author and has just published a tale entitled "The Strange Adventures of Mr. Middleton," which describes the adventures of a former Janesville boy in the mysteries of Chicago. Captain Lawrence Curtis is a graduate of the university and is a member of the Phi Delta Theta fraternity. He has visited in Janesville many times and has friends and relatives here. His old army and university friends wish him success in his new honors.

## DEMS WILL HOLD TWO CONVENTIONS

The First to Elect Delegates, to National Meeting, Will Be Held on May 17.

Wisconsin democrats will hold two conventions this year in pursuance of the action of the state central committee, at the Plankinton house last night in Milwaukee. The first convention, to elect delegates at large to the national convention, will be held in Milwaukee May 17, and the convention to nominate state officers will meet at Oshkosh at a later date, to be determined by National Committeeman T. E. Ryan, Chairman A. F. Warden of the state central committee, and George H. Hilton.

During the afternoon and evening there were preliminary skirmishes between the Wall and Hearst interests, promising interesting developments, but everything favoring of open trouble was avoided by the compromise which recognized the claims of Goshawk. Before this was done, however, it was clearly shown that the Wall men were in easy control of the committee, as well as of the situation.

## NO DOUBT ABOUT IT

Hyomei Cures Else You Get Your Money Back.

Only Catarrh Remedy So Sure of Its Own Merits.

Inhaled, It Kills the Germs Right in the Air Passages.

One of Our Best Known Druggists Guarantees to Refund Money if Hyomei Fails.

It is no uncommon thing to see a medicine advertised as a "guaranteed cure." But investigation usually shows that the guarantee is made by some unknown firm, hundreds of miles away.

The guarantee, though, that comes with Hyomei, is entirely different. It is made by the People's Drug Co. and King's Pharmacy, two of the most reliable drug firms in this section.

They advertise that if Hyomei does not cure the worst case of catarrh, they will return the money without any question or argument. No business house in Janesville has a better reputation for square dealing than either the People's Drug Co. or King's Pharmacy, and when they guarantee that they will refund the money if Hyomei fails to cure catarrh, no one has any question as to the agreement being lived up to, both in the spirit and letter.

Hyomei is very easy and pleasant to use. Just breathe it through the little inhaler that comes with every outfit; every breath will bring recovery so much the nearer. It kills all the germs of catarrhal troubles in the air passages of the head, throat, lungs, soothes and heals the irritated mucous membrane, and is the only natural cure for catarrh.

The complete outfit costs but one dollar, and extra bottles of Hyomei can be obtained for fifty cents. Do not let a slight catarrhal trouble develop into one that may be serious and chronic. Use Hyomei at once, remembering that you run no risk whatever when you try Hyomei on the People's Drug Co. or King's Pharmacy offer of "No cure, no pay."

**Cure Catarrh by Breathing**

King's Pharmacy and The Peoples Drug Company Offer to Return Money if Hyomei Treatment Fails To Cure Catarrh Without Stomach Dosing.

If for a few minutes four times a day you breathe Hyomei, all catarrhal germs will be destroyed and the irritated mucous membrane restored to health.

With every Hyomei outfit there is a neat inhaler which can be carried in the purse or pocket. Hyomei breathed through this contains the same healing balsams that are found in the air upon the mountains, where catarrh is unknown.

It destroys all catarrhal germs in the air passages of the head, throat and nose, and makes a positive and permanent cure of catarrh.

The complete outfit costs but \$1, while extra bottles of Hyomei can be obtained for 50c, making it one of the most economical of treatments for catarrh.

King's Pharmacy and The Peoples Drug Company believe so thoroughly in the merit of Hyomei, that they guarantee to return the money if it fails. This is certainly the strongest evidence they can give of their faith in the Hyomei treatment. It enables any one to use Hyomei without risk of spending money for nothing.

Ask King's Pharmacy and The Peoples Drug Company to show you a Hyomei outfit and explain to you what a simple and easy way it is to relieve and cure your catarrhal troubles.

**"Let us help you to health"**

King's Pharmacy and The Peoples Drug Company Want Every Catarrh Sufferer to Use Hyomei and Be Cured.

Statistics show that at least 97 out of every 100 persons in this state suffer from catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to the discovery of Hyomei and its introduction in this section by King's Pharmacy and The Peoples Drug Company, every method of treatment had been found worthless.

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasing of treatments. Put 20 drops of Hyomei in the pocket inhaler that comes with every Hyomei outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way, and the catarrhal germs even in the most remote air cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

King's Pharmacy and The Peoples Drug Company say to all catarrh sufferers, "Let us help you to health, we are confident Hyomei will cure, so confident, in fact, that we guarantee to refund your money if it fails, complete outfit costs but \$1, and if it does not help you, your money will be returned promptly."

## COMPLETELY IGNORED.

The calling of the republican state convention for May 18th means that the governor has no time for the newspaper men, and that he proposes to ignore them entirely. The state central committee was advised three months ago that the third week in May had been selected by the St. Louis fair management, for the entertainment of the press of the country.

The state committee was asked at that time to select a date for the convention that would not conflict with the St. Louis program. When the committee met last month and the matter was brought to their attention, great surprise was expressed and an adjournment ordered for consultation with the newspaper men. It was as well known then as it is now, that no charge could be made in the St. Louis date, and none was expected. The adjournment was simply a bluff for effect.

It is safe to say that there will be no lack of reporters in the convention. The governor has no occasion to love the republican press of the state but his attitude is boyish and beneath the dignity of a prominent official. He has gone out of his way to say to the newspaper men, "you are not wanted at my convention, and while it is much more important to me than the St. Louis exposition, your presence will not be missed."

The press of the state was in existence before the governor became a dictator and it will continue to live after he passes from the stage.

**MILWAUKEE POLITICS.**  
The good people of Milwaukee can afford to spend a little time in sober thought, and ask themselves the question, "Whether are we drifting?" Socialism has not only gained a foothold, but the vote of last Tuesday shows that more than 25 per cent of it was cast for socialistic candidates, and ten men of this peculiar and dangerous faith were elected as councilmen.

Mr. Berger, the social democratic candidate for mayor, received within 2000 votes of the number cast for the republican candidate, while there was 3600 votes cast for the socialistic labor candidate. This means that nearly one-third of the voting population of Milwaukee is socialistic.

This is a menace to the city and if the sentiment continues to develop it will not be long before republicans and democrats will find it necessary to unite for self protection.

While socialism is more plausible to discuss than free silver, it is much more dangerous, and there is no room for it on American soil.

There is a disposition on the part of American people to grant to our brothers from other lands the broadest freedom, so long as it does not conflict with the welfare of the state and nation, but this is not a monarchy and there is neither occasion for unrest or revolution.

If the people who come to our shores are unwilling to become loyal citizens, and abide by the principles which founded and have so successfully controlled the nation, they should be asked to return to native soil.

Socialism will never gain a permanent foothold in this country and the people of Milwaukee should see to it that it is held in abeyance in that city.

central committee is open to severe and just criticism. Ignoring well established precedent, and bowing to the will of the one man who controls it, the committee has prostituted its office to gratify personal ambition. It represents nothing so far as the party is concerned and everything so far as the dictator is interested.

The party is entitled to better treatment, but it can only be secured by voting out the third term aspirant and with him the men who are recognized as his willing henchmen.

The latest reports indicate that Kerwin is elected by a small majority. While this may be called a victory for the administration, it will be remembered that the vote was non-partisan so far as the two parties are concerned, and it is generally conceded that Kerwin was liberally supported by the democrats.

Snap caucuses and conventions is the order of the day. The governor understands that caucuses require a ten day notice and conventions must be announced 30 days in advance. There is barely time to meet the requirements.

Patronize the home market and help yourself by helping the town where you live. Goods can be bought in Janesville as cheap as in Chicago and the money circulated at home will contribute to prosperity.

The republican caucuses are to be held in Rock county on April 18.

Calls elsewhere in these columns explain conditions. Every republican will realize the necessity of attendance.

The governor seems inclined to push the fight into every corner of the state, and the campaign will be extremely lively during the next 40 days.

County politics begin to be warm, and candidates are coming to the surface in all directions.

## PRESS COMMENT.

Racine Journal: Governor Van Sant and his friends now claim also states as assured to him for the vice presidential nomination. It is understood Minnesota is not waiting for an invite.

Milwaukee Sentinel: There is a species of ants that are said to show as perfect discipline and precision in their movements as do the members of Gov. La Follette's political organization, including his central committee.

Kenosha Telegraph-Courier: Keep off the lawn in the park. This is just the time of year when a few thoughtless people looking for a short cut can make a path that it will take all summer to efface.

Chicago Tribune: Boodling in Milwaukee lacks the finer and lighter touches that distinguish the artist in that field of endeavor. Milwaukee's fame will have to rest on its other specialties.

Milwaukee News: If the Japs are mere imitators, at least it may be said, they have used mighty good judgment in choosing their model.

Waukesha Freeman: The candidate who leaves his party because he failed of a nomination, or for some like reason, generally finds little sympathy and might much better take his medicine and smile.

El Paso Herald: It is a wholly non-sensical idea that the south, casting a solid democratic vote, is debared from naming a candidate for the presidency at St. Louis merely because there was a war forty years ago.

Fond du Lac Commonwealth. Mr. Richard G. Wagner, president of the Wisconsin Sugar Co., is of the opinion that Wisconsin will support thirty sugar factories. As long as Fond du Lac is ready to supply the needed acreage to keep at least one factory going, this city ought to be in on one of the early numbers.

Chicago Inter-Ocean: It is now believed that the United States will take formal possession of the Panama canal on the 25th of the present month. From that time on indefinitely labor troubles in Uncle Sam's strip will be settled as only Uncle Sam knows how to settle them.

Atchison Globe: The latest among the emigrants of the east is to have individual perfume. A woman has perfume made for her own personal use and no one else is allowed to buy it from the dealer. This gives individuality to the user, and no vulgar person can smell just as she does.

Delaunay Enterprise: A clean town promotes healthfulness. Dirty streets and alleys and filthy back yards invite disease and contagion. Cleanliness not only adds to appearances, but it promotes sanitary conditions. Everybody should desire a clean and healthful town twelve months in the year. Some cleaning up is needed right now and this should be done without delay. Do not wait until the warm days of spring before beginning this important work.

Cincinnati Commercial Tribune: Poor Dick Olney and Tommy Willie! Just by the twifling of a tongue the first has lost and the second has won in the fight for the delegation from Ohio to save Sen. Loney—that is, so far as the twifling of the tongue of Tom Loflin Johnson can save the Democratic bill in the national senate. Declaring for Olney and declaring against Willie, Tom Johnson has summed up his claims of hundreds, and the claim of the senate and the fathers of the nation are ending the fiery cross on through their daylongs, summarizing the faithful to the banks of the Seneca to do the bidding of Tommy of the Red Hand. But can they do it?

The republican state central committee, composed of two members from each congressional district, and four at large, is supposed to be a fair minded representative body of men, selected to represent the party.

In exercising the rights conferred upon them, they are expected to serve the party and not the individual. The action of the present state

Miss Lillian Bourgmeier was the hostess at a dancing party given in honor of the members of St. Mary's church choir and the cast of the opera "Mascot," which is to be presented Monday evening, April 25, at Myers Grand opera house. Music and refreshment were served until 11 o'clock at East Side Odd Fellows' hall last evening. The party will long be remembered as one of the most enjoyable social events of the season. The guests began to arrive shortly after 8 o'clock and when Lake's orchestra, concealed behind a bower of palms, ferns and potted plants, pealed forth the opening number there were about eighty young people on the floor. The hostess, Miss Bourgmeier, was assisted in receiving her guests by Miss Tessie Gibbons. At 11 o'clock the guests were escorted to the dining room where they were served to a five-course luncheon. The dining room and tables were elaborately decorated with flowers and cut plants. Nothing that might serve to increase the pleasure of the guests was overlooked. During the early part of the evening there were numerous round dances, Lake's orchestra were called upon to respond to numerous encores of the dancers.

Word was received from Chicago & North-Western headquarters in Chicago last evening that the laying out of the sidetracks to the site of the new hotel sugar factory on the Paul farm has been authorized and that a corps of men would be sent here soon to make the survey. Upon the completion of the survey a crew of laborers will immediately be set to work and the laying of the track rushed to completion. A large force of men is now employed making the excavations for the factory foundations.

La Crosse Chronicle: Secretary Shaw wants more silver. Dangerous doctrine, indeed, for a republican to announce during the generation of William Jennings Bryan.

Chicago Markets: Interesting Gossip Concerning Closing Reports of the Windy City's Mart.

The late strength in wheat today was due principally to the buying of shorts. The market was a very sensitive one and easily influenced by any buying or selling but showing a firm undertone. A little wheat came out at top but the close was firm and the best prices. Shortly after the firm opening the commission houses sold and a little break developed but there seemed to be a fair lot of buying orders in hand on all reactions and the market responded easily.

Corn  
The crowd showed a tendency to fight shy of the corn market and there was very little feature to it. Valentine was again prominent and it looked as if he was on both sides. There was a good deal of buying by Armour and commission houses which caused an advance. The close was firm and demand fair.

Oats  
Market was strong on local buying and covering by the shorts. The weather conditions favored higher prices although the crop reports were moderately bearish. There was a good advance with corn early but when corn declined oats held comparatively strong.

Landlord Gets Judgment: In the case of Welch vs. Newman which has been contested for several days in Justice Reeder's court, a verdict for the plaintiff in the sum of \$12.21 and costs which made the total \$38.48 has been rendered. The plaintiff brought suit for \$175 damages on the ground that the defendant as a tenant of his farm did not keep the place up as he had agreed to do.

He Who Laughs: Some days ago a well known engineer of this city refused to let some boys play ball in front of his house unless they agreed to pay for the windows they broke. The boys readily agreed to do this, but then the engineer said: "Well boys, where is your money?" A small boy replied, "Where are your broken windows?" The companion of the engineer and the boys laughed, but he remained silent.

Speak—Twilight Club Prepare  
for Last Meeting.

Members of the Social Union club have a lively time in prospect next Tuesday evening when the principles and candidates of the two great political parties will be discussed and their respective merits proclaimed in fiery eloquence by speakers of pronounced views and well known ability. Mr. G. Jeffris is to champion the republican party and Otto Oestreich, the democracy. County Clerk Frank P. Starr will discuss "Roosevelt—the Logical Candidate" and William Dougherty will speak on "Possible and Probable Democratic Nominees."

An Open Discussion  
Supt. H. C. Buell is to act as leader and after the completion of the regular program the discussion will be opened to all who care to participate. Party patriotism will thus be given an outlet and a big oratorical clash is confidently anticipated.

The Twilight Club  
The Twilight club has finished its strenuous efforts for the year and the last session to be held on Tuesday evening, April 19, will be devoted to a humorous discussion of "Fads and Fashions." The ladies will attend and consequently the speakers who have donned the cap and bells are preparing to make the efforts of their lives. Each of the men's clubs has enjoyed a very profitable year and the character and quality of many of the papers read have spoken well for Janesville as an intellectual city.

## COUNCIL CANVASS ELECTION RETURNS

No Important Changes in Official  
Count—Social Democrats Not  
a Large Factor.

Aldermen whose official life is rapidly drawing to a close ran the gamut of all sorts of merry jests at the council meeting called to canvass the vote last evening. A motion that the outgoing officials set up a banquet to the survivors in recognition of the uniform courtesy with which they had been treated was unanimously carried by Alderman Connell. The official canvass of the election returns showed no discrepancies of importance in the figures given out. Wednesday, Fred Burpee's majority over William Ruger in the race for the office of city attorney was found to be 16. The total vote cast for this office was 322 votes cast for the office of mayor or last year, James A. Fathers' majority over Asher A. Blunt, social democratic candidate, was 1,422. Mr. Blunt received 99 votes. The highest vote polled by the social democrats was on this office. Walter Kerry, their candidate for school commissioner at large, received only 63 votes and Herbert Ludington, candidate on the same ticket for justice of the peace, received but 70. Last year the social democrats polled 232 votes for mayor and 253 for school commissioner at large. After the votes had been canvassed the successful candidates were officially declared elected. Friends of the new aldermen are arranging for a floral display on their desks on the occasion of the first meeting after April 18 when they assume the duties of office.

## AN IDEA FOR THE COMMON COUNCIL

Why Not Pass a Street Sprinkling  
Ordinance; It Would Mean a  
Great Saving?

To Editor Gazette:  
My Dear Sir—There will be dust in the streets in Janesville very soon, which is unpleasant. What to do? Well, sprinkle the streets, sure, but who does pay for the street sprinkler? A few men pay for the rest of the people. Is that right? and what thanks do those few get from the public? Well, we all know it. Why can't the council pass an ordinance and have the streets all sprinkled, and pay the man who does the work out of the city treasury? That would be the right way. To do, and not let a few men pay for the comfort of all. If we, who so far have paid the bill, would get at the trade, we would not say anything, but outsiders, who don't pay a cent to the city's comfort get trade and do business, which is wrong.  
H. C. DREYER.

## DECLAIMERS AT THE HIGH SCHOOL

PREPARE FOR THE FINAL MEDAL  
CONTEST TUESDAY EVENING.

### EARLY MORNING REHEARSALS

Are Being Held Each Day for Class  
Play Participants—Cast Not  
Selected Yet.

At the high school this afternoon the semi-final declamatory contest to select three speakers from each class for the finals was held. The final medal contest will be held next Friday evening. Four medals will be competed for on this occasion: the Loomis trophy for declamations, the Recorder trophy for extemporaneous speaking, the Lovejoy trophy for original poetry. The oratorical contest will be decided on the merits of the manuscript. On April 29, the league declamatory contest between the Beloit, Evansville, Whitewater, and Janesville high schools will be held in this city. From the four declaimers selected this afternoon to represent the classes in the final contest, two will be chosen to compete at the league meeting.

In the extemporaneous speaking exercises yesterday some extraordinarily good talent came to the surface. The students were required to draw slips containing thirty or more subjects and with few exceptions all acquitted themselves in a creditable manner. Robert Jensen's review of Jacob Rilla's book "The Making of an American," George Scarell's talk on the St. Louis Exposition, Clayton Fisher's discussion of Sugar Beet Culture, Jerome Davis' summary of Roosevelt's political career, and Clarence Van Bynum's presentation of the Russo-Japanese war from the Japanese standpoint were among the most praiseworthy and entitled the first four named to places in the finals, with the last named as alternate. Supt. Shawler, O. A. Oestreich, and Bernard Palmer were the judges.

Senior Class Play  
It was reported this morning that the cast for the senior class play had been decided upon. Supt. Buell stated that this was not the case and that the try-out of candidates for the parts would continue for several days. Mrs. Day is superintending the rehearsals which are held at seven o'clock every morning. It is expected that the graduating class this year will consist of about forty. All members will be required to appear in some rhetorical exercise and those who are not in the class play, commencement, or class day exercises will be required to appear elsewhere on the three nights' program.

Hoang's knife cut the words within her throat.

Hoang's knife cut the words within her throat.

pride and anger, leaped again in Moran's breast, then died away forever. She was no longer the same Moran of that first fight on board the schooner, when the beachcombers had plundered her of her "loot." Only a few weeks ago and she would have fought with Hoang without hesitation and without mercy; would have wrenched a leg from the table and brained him where he stood. But she had learned since to know what it meant to be dependent, to rely for protection upon some one who was stronger than she, to know her weakness, to know that she was at last a woman and to be proud of it.

She did not fight; she had no thought of fighting. Instinctively she cried aloud: "Mate, mate! Oh, mate, where are you? Help me!" And Hoang's knife cut the words within her throat.

The "loot" was in a brass bound chest under one of the cabin's bunks stowed in two gunny bags. Hoang drew them out, knotted the two together and, slinging them over his shoulder, regained the deck.

He looked carefully at the angry sky and swelling seas, noting the direction of the wind and set of the tide, then went forward and cast the anchor chains from the windlass in such a manner that the schooner must inevitably wrench free with the first heavy strain. The dory was still tugging at the line astern. Hoang dropped the sacks in the boat, swung himself over the side and rowed calmly toward the station's wharf. If any notion of putting to sea with the schooner had entered the obscure, perverted cunning of his mind, he had almost instantly rejected it. Chinatown was his aim. Once there and under the protection of his tong, Hoang knew that he was safe. He knew the hiding places that the See Yoo Association provided for its members, hiding places whose very existence was unknown to the police of the white devil.

No one interrupted—no one even noticed his passage to the station. At best it was nothing more than a coolie carrying a couple of gunny sacks across his shoulder. Two hours later Hoang was lost in San Francisco's Chinatown.

At the sight of the schooner sweeping out to sea Wilbur was for an instant smitten blind. What had happened? Where was Moran? Why was there nobody on board? A swift, sharp sense of some unnamed calamity leaped suddenly at his throat. Then he was aware of a clattering of hoofs along the road that led to the fort. Hodgson threw himself from one of the horses that were used in handling the surf boat and ran to him, hatless and panting.

"Look," he shouted. "Look! Your schooner! Do you see her? She broke away after I'd started to tell you—to tell you—to tell you—your girl there on board! It was horrible!"

"Is she all right?" cried Wilbur at top voice, for the clamor of the gale was increasing every second.

"All right! No; they've killed her—somebody—the coolie, I think—knifed her! I went out to ask you people to come into the station to have supper with me!"

"Killed her! Killed her! Who? I don't believe you!"

"Wait—to have supper with me, and I found her there on the cabin floor. She was still breathing. I carried her up on deck. There was nobody else aboard. I carried her up and laid her on the deck, and she died there. Just now I came after you to tell you, and—"

"But—great heavens, man! Who killed her? Where is she? Oh! But of course it isn't true! How did you know? Moran killed! Moran killed!"

"And the schooner broke away after I started!"

"Moran killed! But—but—she's not dead yet! We'll have to see!"

"Where is she? Where is she?"

"Who—the girl, the schooner—which one? The girl is on the schooner, and the schooner—that's her, right there—she's drifting out to sea!"

Wilbur put both hands to his temples, closing his eyes.

"I'll go back!" exclaimed Hodgson. "We'll have the surf boat out and get after her. We'll bring the body back!"

"No, no," cried Wilbur. "It's better—this way. Leave her; let her go; she's going out to sea—out to sea again!"

"But the schooner won't live two hours outside in this weather. She'll go down."

"It's better—that way. Let her go. I want it so."

"I can't stay; I can't stay here!" said the other. "There's a storm coming up, and I've got to be at my station!"

Wilbur did not answer. He was watching the schooner.

"I can't stay!" cried the other again. "If the patrol should signal—I must stop here; I must be on duty. Come back; you can't do anything!"

"No!"

"I have got to go!" Hodgson ran back, swung himself on the horse and rode away at a furious gallop, inclining his head against the gusts.

And the schooner in a world of flying spray, white sea and driving spindrift, her cordage humming, her forefoot churning, the flag at her peak straining stiff in the gale, came up the narrow passage of the Golden Gate, riding high upon the outgoing tide. On she came, swinging from crest to crest of the waves that kept her company and that ran to meet the ocean, shooting and calling out beyond there under the low, scudding clouds.

Wilbur had climbed to the top of the old fort. Erect upon its granite ledge he stood and watched and waited.

Not once did the Bertha Miller falter in her race. Like an unbidden horse, all restraint shaken off, she ran free toward the ocean as to her pasture land. She came nearer, nearer, rising and rolling with the seas, her bowsprit held due west, pointing like a finger out to sea to the west—out to the world of romance. And then at last, as the little vessel drew opposite the old fort and passed not a hundred yards away, Wilbur, watching from the rampart, saw Moran lying upon the deck with outstretched arms and calm, upturned face; lying upon the deck of that lonely fleeing schooner as upon a bed of honor, still and calm, her great braids smooth upon her breast, her arms wide; alone with the sea—alone in death as she had been in life. She passed out of his life as she had come into it—alone upon a derelict ship abandoned to the sea. She went out with the tide, out with the storm; out, out, out to the great gray Pacific that knew her and loved her and that shouted and called for her and thundered in the joy of her as she came to meet him like a bride to meet a bridegroom.

"Goodby, Moran!" shouted Wilbur as she passed. "Goodby, goodby, Moran! You were not for me—not for me! The ocean is calling for you, dear! Don't you hear him? Don't you hear him? Goodby, goodby, goodby!"

The schooner swept by, shot like an arrow through the swirling currents of the Golden Gate and dipped and bowed and courtesied to the Pacific that reached toward her his myriad curling fingers. They folded her, held her close and drew her swiftly, swiftly out to the great, heaving bosom, tumultuous and beating in its mighty joy, its savage exultation of possession.

Wilbur stood watching. The little schooner lessened in the distance, became a shadow in mist and flying spray, a shadow moving upon the face of the great waste of water. Fainter and fainter she grew, vanished, reappeared, was heaved up again, a mere speck upon the western sky, a speck that dwindled and dwindled, then slowly melted away into the gray of the horizon.

## THE END.

Secretary Moody was advised that Miss Florence May Purdee, daughter of the governor of California, has been selected as sponsor for the cruiser California, which is to be launched at San Francisco April 28.

Chicago, Record-Herald: Mr. Cleveland is in favor of Parker, who may now expect to receive a few hot punches from Mr. Watterson.

## UNHAPPINESS DISPELLED.

Men and Women Unanimous About It. Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin tunic on their craniums. It will be good news to the miserable of both sexes, to learn that Newcomb's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. # SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alternative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.

A writer in the Janesville Daily Gazette, says that the city has contracted since the first of January last, \$10,000 or more in indebtedness, being at the rate of \$13,333.33 per month. Going into business fast.—Beloit Journal.

Will the Journal tell us how much indebtedness hangs over its own city? According to popular belief our neighbors have not only gone into business pretty fast in that line, but have gone out on other kinds also as fast as they went in on the first.

Improving the Public Park.—The work of improving the park grounds progressed with commendable celerity considering the weather. A comparative small judicious outlay will make these grounds very handsome. There should be some trees set out this spring.

# EMINENT DOCTORS PRAISE MUCU-TONE

OW can we measure the importance to mankind of the discovery of an absolute cure for catarrh, that dreaded malady which attacks the mucous membrane or delicate underlining of the skin of the body.

The disease which for years has discouraged scientists—the disease which numbers 12,000,000 men and women sufferers in the United States alone.

The heads of great hospitals, where scores of catarrhal patients are treated each year, are perhaps in the best position to appreciate the value of a remedy, which working along scientific, intelligent lines, brings permanent cure to even the chronic sufferer.

The staff of physicians of the Suffolk Hospital and Dispensary in Boston, where in less than two years 83,271 patients have registered, do not hesitate to pronounce Rexall Mucu-Tone the best cure for catarrh they have ever used.

Albert C. Smith is the president and treasurer and the Hon. Chas. J. Noyes and the Hon. James Stevens are vice-presidents. The secretary is F. H. Wallace, M. D., and the superintendent is W. C. Clarke, M. D.

President Smith's letter should be read by every catarrh sufferer. We print it in full:

"It gives me great satisfaction to report to you that after a most careful trial of Rexall Mucu-Tone, the corps of physicians of our institution agree that this compound is the best cure for catarrh which we have ever used."

"In all catarrhal diseases of the bronchial and nasal passages; catarrh of the stomach, intestines, kidneys and bladder; catarrhal troubles of the generative organs of women, etc., Mucu-Tone has effected remarkable permanent cures."

"Mucu-Tone seems to act immediately upon the blood and mucous membrane, strengthening their cells and healing the inflammation."

"We shall continue to use this valuable preparation, for nothing can compare with it in the treatment of catarrh and its kindred troubles."

"Yours very truly, A. C. SMITH, President."

Certainly such testimony as this must convince even the most skeptical—certainly it will justify us in requesting catarrh sufferers to give Rexall Mucu-Tone a trial; to give it a chance to speak for itself. If you will do this we know you will continue taking it until cured.

Rexall Mucu-Tone is unlike all other catarrh remedies. It works through the bloodvessels, going direct to the affected part whether in head, throat, stomach, kidneys or bladder; driving out the poisons and healing all inflammations of the mucous membranes. From the very first dose its strengthening influence will be felt and from four to six bottles will effect a complete cure of the worst cases. Your money back if not more than satisfied.

Sold only at our store. Large bottle, 89 cents.

You can share in the distribution of \$1,000 in cash to be paid those who send in before June 15, 1904, the word Egg-O-See spelled in the greatest variety of ways. This sum will be divided as follows:

To the one sending the greatest variety of spellings.....\$100.00  
To the second sending the greatest variety of spellings.....75.00  
To the third sending the greatest variety of spellings.....50.00  
To the fourth sending the greatest variety of spellings.....25.00

Everyone can compete. It will be found equally interesting to the older people as well as children to whom we have paid thousands of dollars since last spring.

The only conditions are that you must send in your list on or before June 15, 1904; that the spelling must be such as could properly be pronounced Egg-O-See, and for every five different ways of spelling Egg-O-See you must send in one of the little folders, same as used in the school children's drawing contest, found in each package of the food—that is if you spelled the word 10 different ways you would need three of the folders. Be sure and write your name and address plainly. It is permissible to have others assist you. So when you have found all the ways of spelling Egg-O-See you can devise, ask your friends to assist you. Here are a few ways of spelling Egg-O-See: Egg-O-See, Egg-Oh-Cee, Egg-Oey, Egg-O-Cie. Save the folders from Egg-O-See and it will be easy for you to get one of the prizes. We do this to further familiarize the people with the merits of Egg-O-See, the best of all flaked wheat foods.

It is now conceded that Flaked Wheat is the most healthful, economical and convenient of all foods. Egg-O-See has become the standard of these foods for two reasons—First it is incomparably superior in purity and flavor, and a large package retails for 10c.

ASK YOUR GROCER FOR THE GREEN PACKAGE. If your grocer does not keep it, send us his name and 10 cents and we will send you a package, prepaid.
